Setting Standards

Process Analyzers

- Analyzer Shelters
- Gas Chromatograph / FT-NIR
- Moisture Analysers
- Liquid Analyzers
- pH, ORP, DO, O₂ and Conductivity
- Process Refractometers

Automation and Enterprise

- Programmable Logic Controllers
- Distributed Control Systems
- Remote Terminal Units
- Fieldbus RTU
- Scada Software
- Data Acquisition
- Industrial Ethernet Switches
- HMI Software & Terminals
- Relays/Timers/Counters
- Power Supplies

Process Measurement and Control

- Generator Conditioning Monitoring
- Level Indicators
- Level Switches / Transmitters
- Pressure & Temperature Transmitters
- Recorders
- Tubing Bundles
- Turbomachinery Controls
- Valves

Plant Safety and

Preventative Maintenance Systems

- Addressable Safety Systems
- Flame and Gas Detection
- H₂S Detection
- O₂ Deficiency Detection
- Safety Instrumented Systems

Flow Measurement

- Flow Computers
- Magnetic and Vortex Meters
- Turbine Flow Meters
- Thermal Flow Meters and Switches
- Meter Calibration Services
- Ultrasonic Flow Meters
- Positive Displacement

The manufacturers we represent rank among the foremost developers of new technology in the world.
