

PROFICY REAL-TIME INFORMATION PORTAL DEVELOPMENT (RTIP 241)

COURSE DESCRIPTION

The Real Time Information Portal Development course (formerly infoAgent 241) is designed to provide the student with a good working knowledge of Real Time Information Portal. The course includes lab time for configuring and applying the Real Time Information Portal software to process applications.

WHO SHOULD ATTEND?

This course is designed for process, automation or instrumentation engineers, system integrators and any other information technology (IT) professionals who will be developing, configuring and using Real Time Information Portal applications.

PREREQUISITES

Participants should have a working knowledge of Windows® 2000, Windows NT™ 4.0, and/or Windows® XP operating systems.

WHAT TASKS WILL BE TAUGHT IN THIS CLASS?

Upon completion of this course, the student will be able to:

- Understand architecture and communication between the Real Time Information Portal Server and Real Time Information Portal Clients.
- Install and configure a Real Time Information Portal Server, including the configuration and building of a Real Time Information Portal security strategy.
- Create Real Time Information Portal displays using basic graphic objects, datalinks, grids, form components, event charts, and XY charts.
- Connect to and retrieve data from a variety of data sources.

COURSE FEE

The course fee is \$1295 USD. This includes two days of classroom training, use of CB Engineering's training computers, course manuals and lunch both days.

COURSE AGENDA

This is a two day course. Classes run from 8:30am until 4:30pm with a one-hour break for lunch.

Overview

- Introduction to RTIP
- RTIP Architecture
- Features of RTIP

The RTIP Server

- Installing RTIP Server
- Configuring RTIP Server
- Implementing Security

The RTIP Client

- The RTIP Client Environment
- Introduction to RTIP Objects

Introduction to Analysis Displays

- Overview of Chart Types
- Configuring Datalinks
- Graphics
- Designing Navigation

Event Charts

- Understanding Event Charts
- Configuring Event Charts

RTIP XY Charts

- Understanding XY Charts
- Configuring XY Charts

RTIP Advanced Topics

- Embedding RTIP Displays in Web Pages I
- Integrating RTIP Displays into iFIX Pictures
- Troubleshooting RTIP
